

Item No.:GB2

Features

- Widely applied in smart home and medical care equipment, including the lifting coffee table, lifting TV, clinic bed, traction table, facial chair, treatment chair, realizing freely lifting and lowering in high accuracy and stability, with the character low noise, safe and stable.
- Working conditions: Operating Temperature: -10°C – 50°C , Relative Humidity: 20%–90%; Atmospheric Pressure: 0.08–0.11MPa;

Usage

- Range of stroke: 0–250mm
- Max loading: 500kg
- Weight: kg (different stroke length and installation dimensions with different weight)
- Colour: Black or Grey
- Working conditions: Operating Temperature: -10°C – 50°C , Relative Humidity: 20%–90%; Atmospheric Pressure: 0.08–0.11MPa;
- Reserve Temperature: -40°C – 85°C
